

**ACCESSIBILITY**

**MATTING**

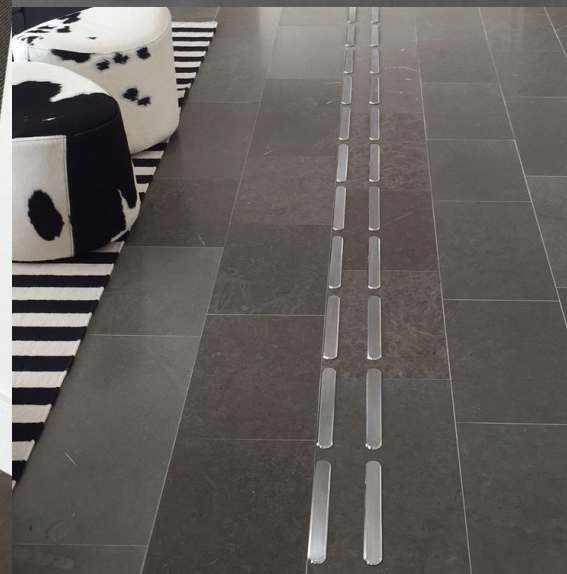

# Professional installations of tactile guidance

We provide both visually and tactilely contrasting markings and acoustic guidance systems for indoor and outdoor environments. Based on Universal Design in collaboration with the leading specialists in the industry and is available in a variety of materials to suit different floor surfaces and environments.

Expertise is our most important tool when installing guidance systems and making buildings and environments more accessible to everyone. We know the requirements for all surfaces and have the experience and methods for correctly installing the products. We collaborate with floor and tile installation companies throughout Sweden. Together we work for a more accessible future.

- **Variety of materials and colours to suite different floor surfaces, environment and interior**
- **Available with sound-absorbing effects**
- **Visual and tactile (tangible) guidance systems for both indoor and outdoor environments**
- **Up to 5-year warranty**

” We support you throughout the process to  
make buildings more accessible.

”

*Ulrik Bergvall*
