MATTING

Certificate of compliance with the REACH Regulation (EC) No 1907/2006

Matting AB certifies that all products we market and sell fulfil the directives of REACH Regulation (EC) No 1907/2006 and in accordance with the European Chemicals Agency's (ECHA) Candidate List of Substances of Very High Concern (SVHC).

Matting AB further certifies that we ensure throughout our supply chain that the products containing a substance on the latest version of the candidate list (SVHC 27 June 2024) in a concentration above 0.1% by weight comply with the information requirements for registration and SDS (Safety Data Sheet). We provide the necessary information to our customers and end-users to enable them to use and handle the product safely.

We also work proactively to phase out substances that have a negative impact on our health and environment and use natural substances and materials wherever possible.

More information and the latest updates on REACH and the candidate list can be found on the Swedish Chemicals Agency's website www.kemi.se and on ECHA's website www.echa.europa.eu
